

# CEFGA Re-Accreditation Self-Assessment Form

Program applicants seeking Re-Accreditation should read the following requirements and complete the checklist below to request a Re-Accreditation review. The ETL assigned to your program will contact you to schedule a Review to confirm that your program meets the requirements for Re-Accreditation.

- 1. Re-Accreditation Review:** The Re-Accreditation review is conducted by a CEFGA trained ETL (Evaluation Team Leader) to confirm that the program is ready for re-accreditation evaluation. The ETL will review the program to make sure they meet all the requirements listed below. The ETL will decide if the program meets the standard or requires another on-site industry evaluation.
- 2. On-site Industry Team Evaluation:** If a program evaluation team is needed, it will consist of three to six industry team members (one member may be from your local advisory committee).
- 3. CEFGA Accreditation Council:** Reviews the team report and your responses to the team report and makes the accreditation decision and report to the CEFGA Board of Directors.
- 4. CEFGA Board of Directors:** A board consisting of business and industry representatives which oversees the Accreditation process.

Yes      No

- |                          |                          |  |
|--------------------------|--------------------------|--|
| <input type="checkbox"/> | <input type="checkbox"/> | Program followed through on the previous recommendations/requirements from previous industry site visit and site team report.  |
| <input type="checkbox"/> | <input type="checkbox"/> | <b>FORM B – Self Assessment Document for Program Accreditation.</b> (Where applicable, all documents in the six sections of the self-assessment notebooks are kept current and documented with supporting evidence.)                       |
| <input type="checkbox"/> | <input type="checkbox"/> | Laboratory organization and space reflects the requirements of the State Board approved curriculum, lab setup allows for the teaching of the instructional modules of the NCCER curriculum, and it accommodates all levels of instruction. |
| <input type="checkbox"/> | <input type="checkbox"/> | Instructor Certification is current.   |
| <input type="checkbox"/> | <input type="checkbox"/> | The program has completed at least two (2) Form D submission to CEFGA within the previous 5 years.   |
